A special general meeting of the shareholders of the Australian Joint Stock Bank was held this day, at twelve o'clock, for the purpose of confirming or annulling the suspension of Hon. R. M. Robey, Esq., from his office of director, in pursuance of clause XXIV of the deed of settlement. Mr. S. D. Gordon took the chair. After a lengthy discussion, the following resolution was agreed to by the shareholders:—"That, owing to the existence of certain differences between Mr. Robey and other members of the Board, and without casting any reflection on Mr. Robey's personal character, the shareholders of the Australian Joint Stock Bank confirm the suspension of R. M. Robey, Esq., by the board of directors, and he is hereupon removed therefrom."

The amount of gold coin issued by the Sydney Branch of the Royal Mint during the week ended (to-day) August 9th, has been 28,000 sovereigns.

The quantity of gold dust imported into the same establishment during the week for the purpose of coinage has been 9880 ounces.

The Western Southern and Northern escorts have arrived during the week from several gold-fields, and have delivered at the Sydney Branch of the Royal Mint the following quantities of gold dust:—Western: From Soala, 778 ozs. 19 dwts. 6 grs.; Bathurst, 718 ozs. 1 dw. 10 grs.; Windyere and Hargraves, 267 ozs. 10 dwts. 4 grs.; Kiangra, 293 ozs. 18 dwts. 18 grs.; Adelong, 674 ozs. 1 dw. 9 grs.; Yass, 826 ozs. 12 dwts.; Burrangong, 3279 ozs. 13 dwts. 3 grs. Northern: From Nundle, 270 ozs. 1 dw. 12 grs.; Rocky River, 863 ozs.; Tamworth, 127 ozs. 15 dwts. Total, 10,069 ozs. 14 dwts. 20 grs.

The corrected tabular statement of the liabilities and assets of the several banks within the colony is published in to-day's *Gazette*, and will be found in another part of our columns.

The share market has been pretty active this week, and a fair amount of business has been transacted in most of our securities. The fluctuations that have taken place in prices have not been very great, and are as follows:—Australian Joint Stock Bank shares are not so firm, and have declined 11s. per share as compared with the last sales before the dividend was declared. Bank of New South Wales and Commercial Bank shares are steady, and have been dealt in at full rates. Steam shares are firm. Australasian Steam Navigation shares continue in demand, and have realised an advance of 15s. per share on previous sales. Illawarra Steam Navigation shares are not so firm, and a forced sale has been made at a decline of 5s. per share, but at this price there are buyers. Newcastle and Wallend Coal Company's shares are firm, and have improved 5 per cent. Gas shares are firm, and meet with a ready sale at full quotations. The following are the rates at which sales have been effected during the week:—Bank of New South Wales, £35 per share; Commercial Bank, £45 per share; Australian Joint Stock Bank, £40 per share; Australasian Steam Navigation Company, £35 per share; Illawarra Steam Navigation Company, £24 per share; Newcastle and Wallend Coal Company, £18 per share; Bank of New South Wales, £13 per share; Australian Gas Light Company, £13 per share.

DEBENTURES.—Government debentures are firm, and terminable due in 1891 have been sold at par and interest. South Australian debentures due in 1885, bearing 6 per cent. interest, have changed hands at 106 and interest. Colonial Sugar Refining Company debentures, due in 1892, have brought 1 per cent. premium; due in 1893, 1 per cent. premium; and due in 1896, 4 per cent. premium. City of Sydney debentures have been quoted at 98 and interest.

The contract between the Government and the Peninsular and Oriental Company for the service between Galle and Sydney via Melbourne has been signed. The subsidy is £134,672 per annum. This company has declared a dividend for the half-year of 3 per cent.

The May wool sales closed on the 6th of June with the same firmness and spirit noticed at the opening, and for good and fine flocks there was keen competition throughout, and at the close, for middling wools buyers had to advance. The arrivals for July are reported to reach 70,000 bales, and it is expected the quantity to be offered at the next sales will amount to 90,000 bales. The range of prices will, it is believed, depend upon the prospects of the harvest and the state of the money market. The dullness in the market at Bradford has caused a fall of 3d. to 4d. per lb. on the new clip of the home growth, and the cotton firms the opinion that a decline in wool generally will take place when the next London wool sales commence.

Hides have been in more demand, and in some instances first-class hides have realised an advance. Hides are about 1s. lower. The tallow market is very depressed, and the price on the spot is quoted at 55s. 9d. to 55s. Spirits: Rum is lower. Brandy is dull of sale, and common kinds cheaper. Wheat and oats have declined 2s. to 3s. Coffee is easier. Sugars are from 1s. to 1s. 6d. lower.

Business during the week has been quiet, but notwithstanding the inclemency of the weather, the transactions have been more numerous than might otherwise have been expected.

Flour.—The market continues in a depressed state, and prices rule no higher. Adelaide flour is quoted at from £16 to £16 10s. per ton, and California £16 to £15 10s. The millers, however, have not altered their quotations. Wheat is without any alteration, and prices nominally the same as last week.

Liquids.—Ale in bulk is quiet. First brands are quoted at from £7 17s. 6d. to £8. Porter in bulk is dull of sale, and Taylor's is quoted at £6. Bottled ale and porter are without any alteration, and first brands of half ale and half porter command from 9s. 6d. to 10s. 6d. Brandy is steady, and Martell's is worth 11s. 6d. Hennessy's, 10s. 6d. to 11s. Cheap brandy is improving, and there is some demand for both low and high class brandies. Rum is still dull of sale, and the present quotation for 30 c.p. is 8s. 9d. to 9s. Geneva is not in much request, and first brands, of low strength and small quantities, range from 13s. 6d. to 15s. For whisky there is no demand, and the present price is 4s. In wines there have been no transactions, and prices are nominal.

Tea.—Good teas are firm, and holders are unwilling to sell except at full rates. For inferior

teas there is not much demand, and sales are with difficulty effected. Low teas are quoted at £5 to £5 5s. per chest; medium, £5 10s. to £6 10s.; superior, £6 10s. to £8; boxes, 21s. to 25s. Green teas are very scarce, and would command a high figure, but there are none at present in the market.

SUGARS.—The sale of the cargo of Manila sugars, per Anna Digna, has tried the market, but prices for Mauritius sugars remain firm. The prices realised for the Manila sugars were as follows:—P, £36 17s. 6d. to £37 15s.; A, £37 5s. to £38 17s. 6d.; O, £40 10s.; M, £42 to £42 12s. 6d. Nearly half the cargo was sold at these rates, which show a slight decline on previous sales; but since the sale by auction the importers are asking higher prices.

COFFEES.—Coffees are dull of sale. Manila, 9d. to 9½d. per lb. in bond; Plantation, 11d. to 11½d. per lb. in bond.

CANDLES.—Candles are very dull, and prices nominally the same as last week; but sales are with difficulty made.

RICE.—There is very little doing in rice, and new Patna cannot be quoted higher than £17 10s. to £18 per ton.

SALT.—Salt is again depressed, and prices have given way about 10s. per ton. Liverpool salt has been sold at £5 10s. per ton; fine salt, £4 5s. to £4 10s. per ton; rock salt, £9 to £10 per ton.

OILS.—OILS are dull of sale, and, with the exception of oils, will not command more than invoice prices.

ROPES.—The Manila rope ex Anna Digna was sold at 10s. to arrive, to one house, and has since been resold at a fair advance.

On Tuesday, Messrs. L. J. Threlkeld and Co. held a large sale of general groceries, recent arrivals. The prices realised for bottled fruit, raisins, pearl barley, arrowroot, &c., were at the present full market rates.

On Thursday, the shipments of teas ex Velox and White Star were offered by the same firm; but, owing to the general depression in the tea market, sales were not effected very readily, and the prices obtained were rather below last quotations—Congo, chests being placed at £5 10s.; half-chests, £2 17s. 6d., to £3 10s.; young hyson, in boxes, 30s.; orange pekoe, in boxes, 26s.; gunpowder, in boxes, 22s.

Messrs. Durham and Irwin held their usual weekly produce sale this day.

Wool.—The small quantity offered was disposed of thus:—5½ tons of 19s. (damaged) at 4½d. per lb. The rest of the week was sold at 4½d. to 5½d. The small quantity of wool offered was disposed of thus:—5½ tons of 19s. (damaged) at 4½d. per lb. The rest of the week was sold at 4½d. to 5½d.

The Peninsular and Oriental Steam Navigation Company have reduced the freight in gold from Sydney to London by their steamers to 35s. per cent, being in full for freight and insurance to the Bank of England. Freight, without insurance, or in blank bill of lading, is 20s. per cent.

The branch steamer Balcutha has arrived at Adelaide with news from England, per Salazette, to the 26th of June. The Commercial news is important. The following is the substance of our telegrams:—Money continues tight, and the rate of discount charged by the Bank of England is still 6 per cent. The English funds are flatter. Consols have declined nearly 1 per cent. as compared with the rates ruling in May. The latest quotations are 99½ to 99½ ex div. for the account ending 10th July. This decline is attributed to the quantity of stock lately offered in the market, but more particularly to the probable range and duration of the struggle in America.

Our Government Debentures are quoted a shade higher than last accounts, but as this includes the dividend for the half-year, there is in reality a fall of about 1 to 1½ per cent. The present quotation for New South Wales Government Debentures due in 1886 is 99½ to 100; Victorian Government Debentures 104½ to 105½. It appears there is no immediate prospect of the £2,000,000 Victorian Debentures in the hands of the London Committee being thrown upon the market, no instructions having yet been received from Melbourne.

The shipments to Melbourne during the month are lighter, and the decrease is principally in soft goods, iron, and leather. The shipments to Sydney are also reported to show a decrease.

The millers, however, have not altered their quotations. Wheat is without any alteration, and prices nominally the same as last week.

Liquids.—Ale in bulk is quiet. First brands are quoted at from £7 17s. 6d. to £8. Porter in bulk is dull of sale, and Taylor's is quoted at £6. Bottled ale and porter are without any alteration, and first brands of half ale and half porter command from 9s. 6d. to 10s. 6d. Brandy is steady, and Martell's is worth 1

ARRIVAL OF THE BALCLUTHA AT ADELAIDE WITH THE ENGLISH MAIL PER SALSETTE.

[FROM OUR ADELAIDE TELEGRAPHIC CORRESPONDENT.]

Friday, 4 p.m.
The Balclutha, with the English mails to 27th June, arrived at Glenelg Pier, at 11 a.m. The Peninsular and Oriental Company's steamer Salsette arrived at King George's Sound at 1 p.m. on the 5th of August, having left Galle at noon on the 20th July.

Captain Reid is the Admiralty agent. Passengers—For Sydney: Captain Cloete, Mr. Muir, Lieutenant and Mrs. Good, Ensigns Duncan and Brittain, and Mr. J. M. Gray. For Melbourne: Mr. N. Rindard, Mr. and Mrs. P. Craig, Mr. and Mrs. Stevens, Mrs. Tapp, Mrs. and Master Cox. Second cabin: Messrs. J. Richmond and J. Baddell. Mr. G. Wardell, a passenger for Sydney, fell overboard on the 4th of July, and was drowned. The Australian April mails were delivered in London, via Marseilles, on the 14th June, and via Southampton on the 20th June. Sir George Grey has been appointed Governor of New Zealand.

The Church-rate Abolition Bill was rejected by the Speaker's casting vote—274 for and 274 against. Great excitement prevailed in and out of the House.

The Budget Bill, including the Paper Duty Repeal Bill, passed the House of Lords, and has received the royal assent.

A terrible conflagration occurred on the bank of the Thames at Southwark, and property to the extent of £250,000 value was destroyed. Mr. Braidwood, director of the fire brigade, was killed by falling off a wall.

The steamer Canadian struck against an iceberg in the Straits of Belleisle, and forty lives were lost.

Transportation to Western Australia is to be continued, but ceases to Malta and Gibraltar.

A great cricket match, played between Eleven of All England, and the United Eleven, lasted three days, and terminated in favour of All England by five runs only.

The fight for the Championship of England was won by Mace, who inflicted frightful punishment on his opponent.

The agitation in the Building Trade still continues. The masons have struck. The masters are resolved to abide by their determination to pay only by the hour.

A loan of four millions is to be raised for India.

A new Indian Order of Knighthood, to be called the "Star of India," has been instituted. Lord Chancellor Campbell died suddenly on the 23rd of June. Sir Richard Bethell succeeds him.

The English Government have chartered the Great Eastern to convey troops to Canada. An angry feeling towards England prevails in the Northern States of America.

The census returns for England and Wales show an increase of 2,134,116 souls.

THE CIVIL WAR IN AMERICA.

EVACUATION OF HARPUR'S FERRY BY THE SOUTHERN FORCES.—REPEL OF THE FEDERAL TROOPS NEAR FORT MUNRO.

American news to the 15th June has been received.

The latest intelligence is of a more important character than any that has yet been received since the commencement of the war.

The Southern forces have, it appears, evacuated Harpur's Ferry in great haste, after destroying all the Government property they could, and carrying away with them what was portable. They attempted, it is said, to break down the railway bridge, but failed, whether through want of proper material, or because the Northern forces were following closely in the retreat, is not reported.

This retreat relieves the City of Washington from the danger of attack on that side.

The Southern troops are only now in force directly south of the capital, and the last news is that the Confederates were determined to concentrate their forces at Manassas Gap Junction. They have abandoned the line of the Potomac, and have gone a little to the S.W. of Alexandria, from whence the road is open to Richmond at another point.

The Federal troops have received their first serious check. General Butler having learnt that the Secessionists were forming an intrenchment, with strong batteries, at Great Bethell, a country village on the road leading from Hampton to Yorktown, about midway between the James and York Rivers, dispatched, on the 9th instant, 3000 Federal troops from Fort Munro, to attack the position, nine miles distant, in the dark. Owing to some mistake about signals, two Federal regiments fired on each other with fatal effect, and at daybreak the Federals advanced, but were received by masked batteries of heavy rifle cannon; these the Federal troops attempted to take, but the effort was futile.

The Southern ports are absolutely blockaded, and the Southern Confederacy has prohibited exportation of cotton to the North under extreme penalties.

A general rising of the slaves is expected. Senator Douglas is dead.

Hundreds of negro fugitives have escaped, and taken refuge under the Federal banner. All slaves thus coming to the Federal camp are declared contraband of war, and retained for service during the campaign. They are to receive pay at the end of the struggle, when their

final destination will be determined—the Government sagaciously keeping open the question until they see how the conflict will terminate.

The tone taken by America with respect to England betrays a bad temper and a narrow policy. Because we do not recognise the Secessionists as pirates, confining our opinion and our action to a strict neutrality, as becomes a free country guided by the doctrine of non-interference, the Federal Government and the bulk of the newspapers of the North have denounced us in terms of undisguised hostility.

FOREIGN INTELLIGENCE.

Clauds are gathering over Austria. Discontent increases from hour to hour in Hungary, and it is thought necessary to concentrate large masses of troops in Pesth.

The state of things in Poland is no better. The new reforms about which there have been such brave flourishes in the journals turn out to be mere shams.

The exasperated people are more inflamed than ever, and serious disturbances are apprehended.

The recognition of the kingdom of Italy by France has been officially announced in the *Moniteur*, and in the Italian Chambers of Deputies.

France has declined a proposal made by Spain and Austria, that the Catholic European powers should become the joint protectors of the Pope's temporal power.

The Sultan of Turkey is dead, and has been succeeded by his brother.

Count Cavour died June 6th; his death will be severely felt throughout Italy.

A tribute of respect was paid to his memory in the British Parliament.

Baron Ricasoli formed a new Ministry. Cavour's policy is to be continued.

The Pope continues ill, not expected to recover.

The Romans have petitioned the French Emperor to evacuate Rome, which he declines.

French reinforcements are to be sent to the Cochinchina expedition.

The French evacuated Syria at the appointed time, and the future government of Syria is settled.

The Danish question is likely to be settled amicably. The proposal of Sweden will probably be accepted.

SUGAR.—Prices for all descriptions, 1s. to 1s. 6d. cheaper. Market exceedingly dull.

SPIRITS.—Rum lower in price. Brandy dull; common kinds cheaper.

ENGLISH SHIPPING.

ARRIVALS.

FROM SYDNEY.—The Star of Peace, Duncan Dunbar, British Trident, and Lucy Macdonald.

FROM MELBOURNE.—Owen Glendower, Prince of Wales, Fern, Kleber, Tamsin, Yorkshire, and Sydney Griffiths.

DEPARTURES.

FOR SYDNEY.—Queen of the Fleet, Clay, Lochiel, Rachel, Bellona, Wave of Life, Vimeira, Annie Armstrong, and Sovereign of the Seas.

FOR MELBOURNE.—Washington, Empress of the Seas, Recruit, Scottish Chief, Walter Lord, Stalinta, Atlanta, Lightning, Kooria, Moorla, Indemnity, Wave, Europe, Frenchman, Matilda, Dufferland Kent, and Countess of Seaford.

There are twenty-six vessels on the berth, for Melbourne and Geelong, at London, and seventeen for Sydney.

The American barque Cockatrice, of Boston, from Melbourne to Singapore, Captain Bangs, struck on the Abrolhos Rocks on the 14th June. The vessel was lost, but all hands were saved.

SECOND TELEGRAM, 6 p.m.

AMERICA.

Amongst the most noteworthy points in the American intelligence is the gradual revelation of the embarrassments which are concealed by enthusiasm, and which hamper both adversaries alike. The first of these is the absence of true military preparation. Mr. Russell's letters reveal the fact that a part at least of the Confederate army is recruited in conscription, which extends even to British subjects, and is carried out by a system of impressment as violent as that which in the Revolutionary War disgraced the seaports in our own country.

The soldiers thus collected seem fairly armed, but there is a great deficiency of material; the shells, for example, collected to attack Fort Pickens being about sufficient for a day's bombardment. On the other hand, the number of effective collected for action by the North is stated at 90,000, of whom scarcely one-tenth only are under any effective discipline. They lounge about at their own will, drink hard, search houses on pretence of hunting Secessionists, and generally display their indisposition to respect officers except in the field.

Already it has been necessary to shoot a few for acts of license, and to issue the most stringent orders against plunder.

General Scott exerts himself actively to put an end to the disorders inherent in the Volunteer force, and he is supported by the majority of the men; but the absence of discipline will create considerable delay.

The Commissariat is in bad odour, and as soldiers will not starve, their raids in search of chickens and other portable provisions turn the neighbourhood of their camp into a hostile country.

The slave question is also as slowly but surely coming to the front of the South side. Mr. Russell reports the existence of concealed bitterness in the minds of the slaves, and of a degree of information the planters do not suspect.

The North, on the other hand, is embarrassed by the presence of fugitives, who come over daily from Virginia to Maryland.

Opinion is not yet prepared for their enfranchisement, and is utterly opposed to their restoration.

Mr. Davis has called in Red Indians, and the representatives of the five nations are on their way to Montgomery to settle the terms upon which they will lend the aid of 20,000 warriors to the Confederacy.

The Southern Congress has replied to the blockade of New Orleans, which is now complete, by a law prohibiting any export of cotton overland except through Mexico.

Tampico is not so far to the north that it might not serve as a port for the export of cotton.

The New York papers denounce the policy of France as well as that of England.

In speaking of the course taken by France the *New York Times* says, "This wilful ignoring of the lofty plan of the American Government—this indifferent choosing between Christ and Barabbas—will not strengthen the respect we are accustomed to entertain for the people and the Government of France. It must even be advisable to withdraw the exequaturs of all the French Consuls in the seceding States. Our business in this deplorable contest is to prove that we have a Government—a proof that seems to be as much needed at Paris as at New Orleans."

The same journal threatens England with chastisement by prohibiting the export of cotton, and remarks "Nothing that England can offer now of sympathy, or hereafter of peace or congratulation at the triumph of liberty and Government, can remove the conviction implanted in the minds of our people, that in the past selfish and continued hypocrisy of her governing class she has lost, in American affairs, the golden mean and opportunity of centuries, and it will never come again."

An article in the *New York Herald* of the 8th June on the relations between Great Britain and the United States concludes as follows:—"England, beware! If, lest in adhering to the grave mistakes already committed by Palmerston and Russell, she shall provoke another trial of our President to lay before the Congress our present unsatisfactory relations with England. The country will expect from Congress the alternative to that Government at this crisis in our affairs of an honest neutrality or declaration of war."

The death of Senator Douglas took place at Chicago, on the 13th of June. This event can scarcely fail to be pregnant with serious consequences to the Northern democratic party, as Mr. Douglas was its controlling spirit, its ablest statesman.

DEATH OF THE SULTAN.

The death of the Sultan was last night announced by Lord John Russell in the House of Commons. His Majesty Abdul Medjid died yesterday morning, 25th June, in the 39th year of his age. His eldest son, Sultan Mourad, will be twenty-one years of age next September.

RECOGNITION OF ITALY BY FRANCE.

The *Moniteur* of yesterday says:—"The Emperor has recognised Victor Emmanuel as king of Italy."

In thus notifying this determination to the Cabinet of Turin, the Government of the Emperor declared that they would decline any complicity in enterprises of a nature to disturb the peace of Europe.

The French troops will continue to occupy Rome as long as the interest which caused their presence there shall not be protected by sufficient guarantees.

A telegram from Turin also states that in yesterday's sitting in the Chamber of Deputies Baron Ricasoli announced the fact to the Chamber, and added, "the recognition of the kingdom of Italy by France and England definitely determines our position."

In Europe Italy is now placed among the other westerly nations, and occupies the place which has long been denied her.

In reply to a question respecting Rome Baron Ricasoli said the Government had no intention of allowing the question to rest, and he added, "I flatter myself that in time, the period which I certainly cannot fix, we shall arrive at such a result as will meet the best wishes of the nation. In the meantime, I can assure you that the recognition of the kingdom of Italy does not involve any conditions nor any insult to our national rights."

Another Bourbonist attempt has been made in Sicily. One hundred and twenty emissaries of the reactionary party landed near Syracuse; they were, however, immediately surrounded and made prisoners by the Italian soldiers, and, if we may credit the accounts received, were dealt with after the severest military fashion—twenty-three of them are said to have been shot.

RUSSIA.

Prince Gortschakoff, the Governor of Poland, died at Warsaw, on the 30th May.

The proffered measures of political reform in Poland seem to have produced precisely the effect anticipated—that of entire dissatisfaction.

The latest news describes the condition of affairs in Warsaw as most gloomy.

SPAIN.

An angry controversy has been going forward between Spain and Morocco, but it is now said to have been amicably settled.

The Queen of Spain was delivered of a princess on June 4th.

TURKEY.

The representatives of the Powers assembled in conference at Constantinople concluded, on June 10th, the negotiations for the future settlement of Lebanon. It was agreed that Lebanon should be placed in the hands of one governor, who should be a Christian. David Effendi, an Armenian, has been appointed to the post.

On the 8th June an iron paddle-wheel steamer, of 700 tons, named the Prince of Wales, built for the A. S. N. Company, was launched from Mr. Langley's yard at Deptford. The vessel is of beautiful proportions.

LATEST COMMERCIAL INTELLIGENCE.

London, Wednesday morning, June 26.

The discount market had not experienced any alteration of striking importance, but during the last few days the demand has become somewhat brisker, and a somewhat increased movement has been excited at the Bank of England.

The market must be expected to continue rather tight until the market is turned, and the mercantile engagements maturing on the 1st of July are met. Considering the contraction of trade, which is taking place in all directions, and the fact that, notwithstanding the drain to America, gold is accumulating in the Bank, there is an impression that the money market will then become easier, and that a moderate reduction will take place in the rate of discount.

In Lombard-street yesterday the rates for the best bills were 5½ to 6 per cent.

In the Stock Exchange money had been much wanted, and commanded yesterday 6 to 7 per cent. on Government securities.
